Class News

Week of February 28- March 4

Note from the teacher!

Can you believe we are almost to the end of Trimester 2. Trimester 2 ends on March 4th. We will be sending home report cards Thursday, March 10th.

For math we will be taking evidence (testing) on the following...

- RT 1: Students will need to be able to decompose numbers and count the value of coins to \$1.00
- RT 3: Students will need to be able to add and subtract multi-digit numbers. Using any strategy.
- RT 5: Students will need to be able to tell time to the hour and the half-hour, be able to draw hands on an analog clock, and read/write the digital time.
- RT 7: Students will need to be able to continue a number pattern and state the rule to the pattern.
- RT 9: Students will need to be able to recognize 3D shapes and their 2D faces.
- RT 10: Students will need to be able to define and name locations with simple directions.

We have been practicing these math concepts for all of trimester 2. Have you student show/practice with you at home. Next week will be the last week that I will be assessing students. If you have any questions, please feel free to send me an email or give me a call at school.
